Discussion

It was noted that there appeared to be a planning condition associated with the original approval that may be relevant to the proposed sale of alcohol. Councillors questioned how the premises licence application aligned with that condition.

Concerns were also raised regarding:

- Increased traffic movements on local roads.
- The suitability of alcohol sales within a business estate environment.
- Potential impacts on neighbouring properties and the tranquillity of the area.

Local Government Reorganisation: Hampshire begins Judicial Review

On 9 June, Hampshire County Council's Cabinet agreed that the Council should pursue a Judicial Review of the Government's decision on Local Government Reorganisation. Formal proceedings were commenced later in the month.

This is not an attempt to preserve the existing system. Hampshire County Council and the district and borough councils are due to be abolished under reorganisation. The issue is whether the replacement structure has been chosen lawfully, transparently and with proper regard to long-term financial sustainability.

The Government selected a five-unitary model which would divide communities across the Hampshire and Solent area and transfer valuable development opportunities and business-rate income into new authorities centred on Southampton and Portsmouth. Hampshire's concern is that the decision was taken without the underlying financial evidence and modelling being made available, despite repeated requests.

The structures being created will serve more than two million residents and could last for decades. If they are financially unsustainable, the consequences would be measured not simply in boundary lines but in poorer services, higher costs and potentially tens, if not hundreds, of millions of pounds over the next decade. Judicial Review is the only mechanism available to obtain answers and test whether the decision-making process was lawful.

The housebuilding consequences for rural Hampshire

One particularly important aspect of the proposed boundaries is their effect on future housing development. Significant housing sites would be removed from New Forest, Test Valley and East Hampshire and transferred into the new authorities centred on Southampton and Portsmouth.

Those homes would then help the cities address their housing shortfalls, while no longer counting towards the housing requirements of the rural areas from which the land has been taken. New Forest, Test Valley and East Hampshire would still be expected to meet substantially increased Government targets, but with fewer planned development sites available to them.

The likely consequence is still greater pressure to identify greenfield land around villages and in the countryside. This is why the financial, planning and service-delivery effects of the

chosen boundaries must be properly examined rather than dismissed as a technical argument about council maps.

County Councillor Grants Scheme reopens

Hampshire County Council's County Councillor Grants Scheme reopened on 1 July. Each County Councillor has an annual budget of £5,000 to support worthwhile projects in their division, with grants generally available from £100 to £1,000.

The scheme can support not-for-profit organisations and community groups, including youth and sports activities, village halls, social-support projects, environmental and outdoor initiatives and equipment such as defibrillators.

I would encourage organisations in Romsey Rural with a suitable project to review the guidance and contact me. Applications will be considered against the scheme criteria and the benefit they can provide to local residents.

Connect to Work: a new employment route for people with social care needs

A dedicated route has opened into the Connect to Work programme for people receiving social care support. This is a practical opportunity for residents with learning disabilities, physical disabilities, mental-health needs or other complex barriers to receive tailored help into sustainable employment.

Hampshire County Council has secured £18.7 million of national funding for the wider Connect to Work programme. Support is voluntary and individually tailored, and can include one-to-one help, training, job matching and continuing support for both the participant and the employer after work begins.

Employment is not simply about income. For many people it can provide independence, confidence, purpose and a stronger connection to their community. The right support can also help employers recruit and retain people whose abilities might otherwise be overlooked.

Hampshire and the Solent economic update

The June Economic Dashboard showed that the Hampshire and Solent economy continued to grow at a solid pace in the three months to April, broadly in line with the United Kingdom as a whole.

There were encouraging signs from retail activity and some stabilisation in demand, although regional business activity softened slightly during May. Inflation remained above target but broadly stable, while local firms continued to report high input costs and evidence that some of those costs were being passed on to consumers.

The labour market remained stable but subdued, with PAYE employment and unemployment broadly flat in May. Pay growth in Hampshire and the Solent remained comparatively strong, despite some easing nationally. These figures underline both the resilience of our local economy and the continuing pressure on households and businesses.

Testwood Lakes and water safety

There was deeply distressing news from Testwood Lakes after a 15-year-old boy was reported missing while swimming on 24 June. A major multi-agency search followed, and Hampshire

Police later confirmed that his body had been found. My thoughts remain with his family, friends and everyone affected by this tragedy.

The incident is a heartbreaking reminder that open water can be dangerous even in warm weather and even for confident swimmers. Parents and carers are encouraged to discuss the Water Safety Code with children and young people, including the "Float to Live" advice and the importance of calling 999 immediately in an emergency rather than entering the water to attempt a rescue.

Have your say on the future of policing

The Government is considering significant changes to policing across England and Wales, including the possibility of merging existing police forces into larger regional organisations. These decisions could reshape policing in Hampshire and the Isle of Wight for many years.

Policing works best when it understands and reflects the communities it serves. Whether residents support locally focused policing, see advantages in larger forces or have concerns about accountability and local identity, it is important that Hampshire voices are heard before decisions are made.

Please help tackle hare coursing in rural Hampshire

Hampshire and Isle of Wight Constabulary has continued patrols and enforcement activity against hare coursing. This is not a harmless rural pastime: it involves trespass, damage to crops and land, intimidation of farmers and residents, and organised criminality.

Residents should report suspicious vehicles or activity, particularly groups entering fields with dogs, to the police. Call 999 where an offence is happening or there is an immediate risk; otherwise report through 101 or the police online reporting service. Vehicle registrations, descriptions and locations can be extremely helpful, but nobody should put themselves at risk to obtain them.
